Dear Administrator, & PTA Committee,

Looking for a new way to raise money for your organization and help out the community?

Selling emergency preparedness products is a great way to go. Every household needs these products and many people just don't know where to find them.

My name is Susan Trant and I can help you raise money while helping your parents/customers "Be Ready" for an emergency.

Our fundraisers can be designed to fit the needs of your organization. Here are some fundraising programs which have helped organizations make money *AND* "Be Ready":

1. Offer a selected products with a 15% rebate on items sold.
2. You pick a product and purchase it at a discounted price then resell it at your price. Your organization keeps the difference. Your logo can be put on selected products.
3. Display products at your facility and orders placed receive a rebate.
4. I can give an informational lecture on home safety and emergency preparedness. Any orders taken will receive a rebate.

I appreciate this opportunity to help your business and look forward from hearing from you soon.

Sincerely,

Susan Trant
