

# Let Susan Do It

## No Judgement - Just Results

- Do you have a room that needs to be organized and don't know where to start?
- Is your garage full of stuff that needs sorting, organizing or just needs to go?

- Having someone help get things started makes all the difference.
- I work with you to create an organized, functional, clutter free environment.
- One of my specialties is organizing your papers and files.

---

### Here is what my clients say:

"What I appreciated most about Susan was her positive energy and reassuring presence while I was saying goodbye to long loved items that have now become a hindrance to living comfortably in today's environment."

Liane T, Laguna Woods

"Susan is an absolute delight to work with. I have hired her through the years to declutter and organize my homes in Corona del Mar, Los Angeles and Palm Springs. Later, Susan helped us pack up, throw out, give away and sell some things in order to move out of both the Corona del Mar and LA homes. Next, she helped us unpack, organize and move things into our Palm Springs home. I have no idea how we would have done all of this without Susan. Susan brings wonderful energy and lightness to these tasks."

David R, Palm Springs  
(formerly Corona del Mar and LA)

Susan was a life-saver! She was a referral from a friend when I was looking for someone to help me pack up my house to move out of state. She was available, organized, thoughtful, helpful, and committed to getting the job done so efficiently. I don't know what I would have done without her help! I would recommend Susan for organizing, packing, or recommendations for survival products. She is a valuable, honest person and has a great attitude!
